Thank you
Royal Purchasing

Valued Supplier:

Understand there will be production teams working over the course of the Holiday week-ends to meet Customer requirements. However, actual delivery needs will be determined as timing draws closer.

PLEASE NOTE! If orders are placed and due during any Supplier down time and this does not correlate with Royal's schedule, it will be the Suppliers responsibility to ensure delivery take's place prior to any such down time. Late shipments will result in the generation of NCMRs, and the application of monetary penalties as described in the Royal Supplier Handbook.

If you do not require a pick up for the Wednesday milk run, please e-mail Royal Planner and copy quincy.shipping@royaltechnologiescorp.com. Otherwise, this will run to your facility for a scheduled pick up on the suggested Wednesday during the Holidays.

If you are on the as needed pick up schedule there will be no change. Pick up's will occur as requested by Supplier, with the exception of the Holidays called out above.
